Project X - Positive Activity Initiative

Volunteers from all over London have been signing up to help out local communities in collaboration with the Lewisham Central Safer Neighbourhood Team throughout October and November. A variety of operations have been carried out which we know will have a positive impact on our residents. Most notably, the community weapon sweeps have been very successful within Cornmill Gardens, and three knives have been retrieved from within bushes next to the Quaggy river – a known hot-spot for nominals and frequented by pupils of Prendergast School.
